## VCFA Campus Health Policy

In order for VCFA to remain a vibrant and healthy location for students, faculty, staff, and guests and given the heightened need for vigilance due to the existence of communicable diseases like the flu and coronavirus, we ask that all people follow the guidelines below:

- **Stay home if you are sick** — If you have a fever, do not return to work or classes until you are fever free for 24 hours.
- **If you get sick during the residency/semester and are staying in the dorms** — please notify your program office. If possible, arrangements will be made for remote/alternative access to programming. Please also notify your program and [fhsupport@vcfa.edu](mailto:fhsupport@vcfa.edu) in order for your room to be disinfected after your departure.
- **If you get sick during the residency/semester, stay in your dorm room** — please notify your program and [fhsupport@vcfa.edu](mailto:fhsupport@vcfa.edu) in order for arrangements to be made to have your food delivered (if you are on the meal plan).
- **If you are sick, avoid touching your face** — particularly nose, mouth and eyes.
- **If you are sick, avoid hands-on interactions** — no handshakes, hugs, etc. and be cognizant of social-distancing guidelines.
- **Wash your hands frequently** — for a minimum of 20 seconds, wash the backs of your hands as well as your palms, between your fingers, and under your fingernails.
- **Cover your coughs and sneezes** — ideally with something disposable (like a tissue) which can then be immediately thrown away.
